PROFESSIONAL SUMMARY

Software Engineering enthusiast with practical experience in building scalable web applications and AI-driven solutions using Java, Spring Boot, React.js and MySQL. Experienced in developing full-stack applications, designing RESTful APIs, integrating databases, and implementing modern software development practices across multiple projects. Strong analytical and problem-solving abilities with a commitment to delivering reliable and high-performance software solutions.

EXPERIENCE

Web Development Intern

May 2025 – Jun 2025

AgenciFlow India Private Limited, Coimbatore

[GitHub](#)

- Developed responsive and user-friendly web applications using HTML, CSS, JavaScript, and modern frontend development practices.
- Designed and implemented interactive UI components while ensuring cross-browser compatibility and mobile responsiveness.
- Collaborated on feature development, debugging, and performance optimization to enhance overall user experience and application quality.

TECHNICAL SKILLS

Frameworks & Tools: Spring Boot, React.js, GitHub, Maven, Figma
Database : MySQL, MongoDB
Automation : Make, n8n
Cloud : Git, AWS (EC2, S3)
Programming: Java, C++
Web & APIs : JavaScript, React, REST APIs, Gemini API, HTML5, CSS3

PROJECTS

OmniPrice – Multi-Platform Price Comparison System

[GitHub](#)

- Problem: Users need to visit multiple e-commerce websites to compare product prices and offers.
- Approach: Collected product data from multiple platforms using APIs and Selenium, and integrated an ML model for price prediction.
- TechStack: Spring Boot, React.js, Python, Selenium, REST APIs, MongoDB, Machine Learning
- Results: Displayed products, prices, and offers from multiple websites in one place and provided price prediction insights for better purchasing decisions.

College Event Management System

[GitHub](#)

- Problem: Managing event registrations through forms, emails, and spreadsheets was difficult and students often missed event announcements.
- Approach: Developed a web application using React and Spring Boot with CRUD operations for event creation, registration, and management.
- TechStack: Spring Boot, React.js, MySQL
- Results: Centralized event management with online registration, automatic registration closure after deadlines, and email confirmations.

EDUCATION

Sri Krishna College of Engineering and Technology, Coimbatore, Tamil Nadu

2023 – 2027

B.E Computer Science and Engineering

- GPA:7.8

CERTIFICATIONS & ACHIEVEMENTS

Elite Certification – Introduction to Internet of Things
React Web Developer Certification – Infosys
